The Family - A Level Sociology

Family diversity has increased, and there as been a shift away from the traditional nuclear family. Nowadays, it is more common for reconstituted, lone-parent and cohabiting families to exist. However, functionalists and the new right reject this in arguing the nuclear family is the only family type functional for society.

Family Theory - Sociology of Family - iResearchNet

The concept of the life course refers to the social processes shaping individuals' journey through life, in particular their interaction with major institutions associated with the family, work, education, and leisure. The life course perspective distinguishes between trajectories on the one side and transitions on the other.

Life Course and Family - Sociology of Family - iResearchNet

Sociology of the family is a subfield of sociology in which researchers examine the family as one of several key social institutions and units of socialization. The sociology of the family is a common component of introductory and pre-university academic curricula because the topic makes for a familiar and illustrative example of patterned social relations and dynamics.
