"I am very happy that you guys released this, not only it is a great idea it was executed properly. I will use this to build a basic AMP site for a customer. i looked at the video and demo sites and was very happy with what could be done. I would really like to add more widgets to your free website design software.

A power inverter, or inverter, is a power electronic device or circuitry that changes direct current (DC) to alternating current (AC).. The input voltage, output voltage and frequency, and overall power handling depend on the design of the specific device or circuitry. The inverter does not produce any power; the power is provided by the DC source. A power inverter can be entirely electronic ...
