Aircraft Load Sheet Calculator - Spreadsheet | Excel Pilot Logbook

The index calculation in this app is based on computer translation of the manual loadsheet (see the excel file for details), therefore the MAC can differ from the electronic loadsheet by a value of +1%. The data used in this app is for ATR 72-500 operated by PIA. Since aircraft weight and company policies vary, results may not be valid for aircraft operated by other operators. ...

Aircraft manual loadsheet by AlexandraBader2054 - Issuu

1. This chapter of the manual focuses on the procedure applicable when last minute changes are effected on the loadsheet. General 2. The loadsheet must reflect the actual loaded state of the aircraft prior to take-off. In order to comply with this requirement, it is often necessary to adjust the loadsheet after completion. Such adjustments are ...

Aircraft Manual Loadsheet - integ.ro

- DRY OPERATING WEIGHT (D.O.W.) : Weight of the aircraft ready to flight prior to load the traffic load and fuel. The Dry Operating Weight is the Basic Weight plus any operational item : crew, crew bags, flight equipment, pantry (catering equipment, food, beverages, etc.). - GRP : Code of the pantry to be used in the flight. NOTE : GRP : MOD means a D.O.W. or a D.O.I. modified and normally not in use. The reason of that must be reflected at the end of the loadsheet in the supplementary ...

Getting to grips with weight and balance - SmartCockpit

Manual loadsheet b737- 800 I created this app after asking some friends to practice manual load tables. The first hurdle was how can I do it just like paper 1. In the end it was easy, just using a PDF copy of the original with some modifications. Secondly, graphics, graphics... Well, after many hours of accident and burn, I nailed it. Looks good and perfect for practice. I will soon try to make the extension of the picture possible, but so far it is static. It can be a little difficult to ...
