2014 SOLIDWORKS Help - Autotransitioning
We can't transition height, but we can transition max-height, since it has an explicit value. At any given moment, the actual height of the element will be the maximum of the height and the max-height. So as long as max-height's value is greater than what auto comes out to, we can just transition max-height and achieve a version of the desired ...

History of Broomfield | City and County of Broomfield ...
This method only partially achieves the desired effect but doesn't actually remove the space. The transformed box acts like a relatively positioned element - the space is taken up no matter how it is scaled.
