For information on the list of all the APIs, refer to Ellucian XE Registry on the Ellucian Hub. Note: The rel-studentapi-9.4 is the tag name used for this release source code to generate the package.

Ellucian Banner API Implementation Guide v1 - Final

To use an image from the Files page as a user banner photo, pass the file ID in the fileId property of the request body or in the fileId request parameter. Images uploaded on the User Profile page don't have a file ID and can't be used as the fileId. To upload a binary file as the user banner photo, send it in a multipart/form-data message.
