So what is 20/20 vision? In its most basic definition, it's considered "normal," not perfect vision. After digging deeper I learned that fractional vision measurements like 20/20 or 20/10 are not actually about how good your vision is, rather they are a measure of visual acuity. The lower the second number, the sharper your visual acuity.

Vision 2020 has served as APTA's official vision statement for the future of physical therapy since it was adopted by the APTA House of Delegates (House) in 2000. Although 2020 is still several years in the future, the 2011 House adopted a motion prompting the APTA to take steps to look beyond Vision 2020 and reflect the physical therapy profession's commitment to society.
