### 11 Funny Crush Stories That Were Beyond Embarrassing

According to psychologists, a crush lasts on average for four months, if feelings persist beyond that, one is considered to be “in love”. Such a statistic sounds too accurate for something as elusive as love, especially when taking into account the fact that the definition of love itself is continually being redefined.

### Beyond A Crush by Austin on Spotify

Your crush is like them — only someone you happen to speak to. How exciting! Just don't go putting them on a pedestal and worshipping them. 6. You can spend so much more time on yourself. Your crush won't care

what you do either way, so your life becomes about you and what makes you happy.

Psychologists say a crush only lasts for 4 ... - Factual Facts  
Separate yourself from your crush. If you can, try to give yourself some breathing room away from the object of your affection. A lot of crushes are born of proximity, or simply being around someone who happens to be remotely likable. If you're not around this person as often, the crush might peter out on its own.

### 12 Signs a Person Definitely Has A Crush On You - Bustle

In its purest sense, a crush is a  
form of parasocial relationship; a  
one-sided relationship where you  
have feelings for someone else but  
those feelings are not reciprocated,  
according to Dr. Anna Machin, an  
evolutionary anthropologist at the  
University of Oxford's Department  
of Experimental Psychology.
