A: Dummy you without a big data and analytics project (jk). But you are in luck, I happen to have the book for you – Big Data and Analytics for Dummies. If you are so hung up on the words, “for dummies,” here is the rationale why we decided to use this popular brand, Cisco Comments on the ...

Big Data - dummies

The “for dummies” is a misleading part of the title, the underlying big data technologies are far from being simplistic and easy to grasp. Other than that, the book is a great overview of the field, and a good big data myth breaker. As it usually the case with IT, the ideas covered are logical evolution of the digital world.
