Library Genesis is a search engine for free reading material, including ebooks, articles, magazines, and more. As of this writing, Library Genesis indexes close to 3 million ebooks and 60 million articles. It would take several lifetimes to consume everything on offer here.

Advanced Life Support (ALS) tips and help! - The Student Room

The CASTest uses a simulated cardiac arrest to test the application of resuscitation knowledge, and skills and is focussed on team leadership and decision making.<sup>5</sup> The score sheet contains performance criteria that participants are expected to demonstrate in order to pass the test.

Advanced life support cardiac arrest scenario test ...

CASTest on Advanced Courses: Participants must be tested using one of the standardised testing scenarios provided. The CD shall decide which scenario(s) are used for testing the participants. If multiple scenarios are used, they should be allocated to participants in a random manner.

ALS - Advanced Life Support course

I have my ALS tomorrow. I am very nervous about it. I am rubbish at recognising tricky arrhythmias under pressure, and always forget some important things. I know we have a cardiac arrest simulation and a written MCQ but the simulation assessment is what I am most stressed about. The booklet for ALS is also quite big and there so much in it.

Advanced Life Support MCQ | UK and European ALS ...

ALS - Advanced Life Support. The Resuscitation Council (UK) Advanced Life Support (ALS) course was launched 1993. It is a standardised national course teaching evidence-based resuscitation guidelines and skills to healthcare professionals in the United Kingdom. The ALS course has also been adopted by the European Resuscitation Council (ERC)...

Advanced life support cardiac arrest scenario test ...

in<sup>65</sup> the CASTest (rho 0.72-0.82, P<0.01). Other assessment outcomes for the ALS <sup>66</sup> course correlated poorly with CASTest scores (rho = 0.27-0.37, P<0.01). <sup>67</sup> <sup>68</sup> Conclusion: This new simple scoring system can be used to better characterise <sup>69</sup> performance on the ALS course CASTest than the current binary pass-fail outcome.
