Other Azure and Office applications not specified by the policy assignment, including the Office 365 portal itself, will not exercise the conditional access control at login and therefore will not require Duo MFA. If you want your users logging into the Office 365 portal using Duo MFA, then select the All cloud apps option.

Why is my Outlook client not showing a 2FA ... - Duo Security

Duo Security is an industry leader in MultiFactor Authentication (MFA) and zero-trust security solutions. Many organizations choose to federate their on-premise identity – Active Directory – with Microsoft so that users have a Single Sign On (SSO) experience when accessing 365 – this is, in many cases, achieved using ADFS.

Duo Security Community

Adding Duo's AD FS MFA adapter to your federated Office 365 deployment affects how rich Office applications and mobile clients authenticate to Office 365 services. There are certain limitations to Microsoft's framework for Office clients that may disallow access if proper cautions are not taken ahead of time.

How to Install Duo Two-factor Authentication for Office 365 with Duo Access Gateway

Summary. The purpose of this guide is to help admins understand Modern Authentication concepts, behavior, end user impacts, as well as implementation considerations when rolling out Duo + ADFS with Office 365.
