The oven has reached the set temperature but the temperature dial halo is still red (indicating that the oven is not ready to use). This is normal: when heating up from cold, your oven is designed to initially heat to a temperature somewhat higher than what you have set. This is to provide optimal baking conditions right from the start.

Traditional Baking (Oven Burner without Fan Motor) Before introducing the food, preheat the oven to the desired temperature. For a correct preheating operation, it is advisable to remove the tray from the oven and introduce it together with the food, when the oven has reached the desired temperature.
