GCSE Exam Questions on Volume Question 21 (AQA November 2003 Higher Paper 1 NO Calculator) The first diagram shows a cone of base radius 12 cm and perpendicular height 10 cm. A small cone of base radius 6 cm and perpendicular height 5 cm is cut off the bottom to leave a frustum.

Science calculations - Sample exam questions - scaling up ...

GCSE Maths - Cones and Frustums (Volume Surface Area) Try the free Mathway calculator and problem solver below to practice various math topics. Try the given examples, or type in your own problem and check your answer with the step-by-step explanations.

Volume and Surface Area: GCSE Questions (examples, videos ...

This may seem a little different, but it actually comes up a lot. First, we must write the volume in terms of x . The volume of a pyramid is one third of the area of the base times by the perpendicular height. We know the area of the base is 18 cm^2 , and the expression we're given for the height is $x+5$, so the volume is $\frac{1}{3} \times 18 \times (x+5) = 6(x+5)$
