conviction that the universe is governed by a single God and not by the whims of many gods (p.20). Also the medieval insistence on the rationality of God. Many of the fathers of modern science were theists eg. Galileo and Kepler.

### **Review: God's Undertaker by John Lennox | Books | The Guardian**

God's Undertaker is, first of all, a readable survey of the scientific evidence for design. Even though there are a number of other very-well written works dealing with similar subject matter, Lennox's book is still outstanding in making the arguments not just readable, but interesting and connected.

John Lennox is such a great philosopher and scientist. He does more than his due diligence in constructing his arguments for the idea that science has not only been powerless to do away with God, it has only done more to demonstrate that God does indeed exist and was instrumental in creating the cosmos, life, and everything else that is.
