Re: Cobra 42 turret problems Hi every body: I am having a problem with a cobra lathe. The turret goes home very good, but when I select one tool (whatever between 1 and 12), the turret spin until the correct tool, but it does not clamp and alarm of turret clamp display. If some body can help me I will be happy. Best regards

He's interested in a Hardinge Cobra 42 & Imeca VIP 70 bare feeder combo. 10 years old 2000 hours (I assume that's cutting hours) Fanuc control (I don't know the number) I've seen the picsw, it looks very clean and unmolested - which fits in with it's background. So, your experiences and help would be much appreciated.
