More aggressive debt forgiveness after the crash helps, but as they illustrate, we can be rid of painful bubble-and-bust episodes only if the financial system moves away from its reliance on inflexible debt contracts. As an example, they propose new mortgage contracts that are built on the principle of risk-sharing, a concept that would have ...

House of Debt : NPR

House of Debt looks at the impact the housing market had on the banking industry as household debt increased and spending decreased.

House of Debt: How They (and You) Caused the Great ...

House of Debt is important because it persuasively demonstrates that the conventional meta-narrative of the crisis and its aftermath, which emphasizes the breakdown of financial intermediation, is inadequate. . . . All future work on financial crises will have to reckon with the household balance sheet effects they stress.

House Of Debt How They

The basic premise is that household debt is the culprit behind so many of the recessions and economic downturn that we've seen last century. And the research supports it. The formula is simple: as households incur more debts, the whole economy gets closer to a downturn.
