How to find the solution for a system of
equations - SAT Math

In statistics, M-estimators are a broad class
of extremum estimators for which the
objective function is a sample average.
Both non-linear least squares and
maximum likelihood estimation are special
cases of M-estimators. The definition of M-
estimators was motivated by robust
statistics, which contributed new types of
M-estimators. The statistical procedure of
evaluating an M-estimator on a ...
