### LabVIEW Tutorial 1 - Getting Started

If you are using LabVIEW NXG, learn programming basics by launching LabVIEW NXG and using the interactive lessons on the Learning tab. Core LabVIEW Concepts. LabVIEW Environment Basics—Examine the most important building blocks for any LabVIEW application, including the front panel, block diagram, palettes, controls, and indicators.

### National Instruments LabWindows / CVI Tutorial Part 1

This is a tutorial on the elements of a VI including the Front Panel, Block Diagram, controls and indicators, basic functions, and help. Follow us on Twitter @nifirstrobotics Happy robotting!

### Introduction to LabVIEW - National Instruments

In NI LabVIEW software, the array index is zero-based. This means that if a one-dimensional (1D) array contains  $n$  elements, the index range is from 0 to  $n - 1$ , where index 0 points to the first element in the array and index  $n - 1$  points to the last element in the array. Clusters group data elements of mixed types.
