Language and the Cognitive Construal of the World : John R ...

Framing is pervasive in language: as we argued in chapter 2, all linguistic units evoke a semantic frame. Yet framing is but one example of the ubiquity of conceptualization in linguistic expression. All aspects of the grammatical expression of a situation involve conceptualization in one way or another, including inflectional and derivational morphology and even the basic parts of speech.

Cognitive restructuring in the bilingual mind: motion ...

This remarkably uniform use of construal-consistent language across individual instructors and course audiences demonstrates the pervasive nature of these cognitive construals and reveals that construal-consistent language is used in teaching biology across a wide range of contexts by a variety of different experts.
