Ldv Maxus Engine Management Light

The LDV Maxus is a light commercial van model, originally produced by LDV Limited. It was launched in the end of 2004. The model was jointly developed under the LD100 programme code by LDV and Daewoo Motor, prior to Daewoo entering receivership in November 2000, in a five year, £500 million development programme. It was intended to replace LDV's Convoy model, and Daewoo Motor Polska's Lublin II model. A narrower derivative sharing the bodysides of the swb low-roof versions was ...

ldv maxus What engine oil do I need is one of the most common questions we hear at MicksGarage. We can understand why, because choosing the right car engine oil can be confusing. Using the engine oil finder will ensure you get the right spec oil for your car. Bear in mind that more than one grade of oil might be recommended. For example, 5w30 engine oil and 10w40 engine oil might be suitable ...

LDV V80 Panel Van – Official site for LDV in the UK

Quite difficult access but got it changed. Turns out the old sensor was working fine (good hot/cold readings on bench test). My starting problem was air in the fuel filter, primed the system and it started fine. Think I have a tiny air leak somewhere. Engine management light is now on so I'll have to get a code reader & find out what's up.

fixed4free.com - LDV MAXUS My EDC light is always on ...

LDV Maxus flv We can fix most problems on the LDV Maxus that occur with faults to do with the Central locking/fobs/ESA/ETACS - three relays are in the ESA and they control ONLY the central locking - two more relays are in the ETACS unit (behind the ashtray) and they control the fogs and intermittant wipers.
