Maple Chase thermostats are designed to be used with a forced-air heating and cooling system. The best location for this thermostat is on an indoor wall in a commonly used room. For an accurate reading, the thermostat should not be in direct sunlight or located above a register.

Robertshaw 9500 : Manual

We just purchased our home and have lived here all of 5 days. I woke up today freezing so I went to check the heat, It was set to go on if the thermostat read 68 or less. Well needless to say it did not go on. We are cold. The Maple Chase company is closed. The website does not even show our thermostat on it as they have changed to a Robert Shaw brand name but we need help with the Maple Chase ...
