Methods-Time Measurement (MTM) is a predetermined motion time system that is used primarily in industrial settings to analyze the methods used to perform any manual operation or task

Access Free
Methods And
Measurements

and, as a product of that analysis, set the standard time in which a worker should complete that task.. MTM was released in 1948 and today exist in several variations, known as MTM-1, MTM-2, MTM-UAS, MTM-MEK
