Microscope
Letter "e" Lab

Where To Download Microscope Lab Answers

The total magnification of the microscope is equal to the magnification of the ocular multiplied by the magnification of the objective. If you are using the 10x objective and the 10x ocular

Where To Download Microscope Lab Answers

the total magnification would be $10 \times 10 = 100x$. A specimen which is actually 1mm in size would appear to be 100mm in size when viewed through the microscope.
