### N3 Troubleshooting Guide N3 - Nelson Software Service

Stud Welding Systems. Stud welding is an arc welding process where an electric arc is established between the base of the a weld stud and the work piece creating a welded joint in a split second. Our Nelson ® and Tucker ® stud welding systems are perfect for the fastening needs of automotive, construction and industrial applications.

### Nelson Stud Welding - USA

Nelson ® NCD+ Stud Welding Equipment The line of Capacitor Discharge stud welding equipment from Nelson ® represents state-of-the-art technology for small diameter fastening to light gauge metals. Three different model offerings allow for the most economical solution to application demands.

### Nelson Stud Welder Manual

Nelson ® stud welding ' s rich history began in 1939 with the U.S. Navy. Edward “ Ted ” Nelson ® invented the stud welding process at the Mare Island shipyard in Vallejo, California, as a means to speed production of shipbuilding. The first application was to secure wood decking on submarines, but was quickly adopted and used on battleships and aircraft carriers.
