Nikon 1 J1 V1 For

The system is spearheaded by two cameras - the Nikon 1 J1 and 1 V1. The J1 is the entry-level model, and the V1 is aimed at a slightly more advanced user, but both cameras are intended essentially for beginners upgrading from compact cameras or cameraphones, and who find the size and complexity of a DSLR intimidating. The V1 and J1's standout features are their autofocus and continuous shooting abilities.

Advanced Camera with Interchangeable Lens Nikon 1 J1 / V1

Nikon 1 J1 and Nikon 1 S1 have the same Nikon 1 lens mount and currently there are 13 native lenses available for these cameras. Another important factor is the availability of image stabilization. None of these bodies have sensor based image stabilization so you have to buy lenses with Optical stabilization feature.
