Operations

Management

Solution Manual

(Chapter 12)

Production and

File Type PDF

Operations

Management

operations management (POM)

is the

management of an

organization's

production

system. A

production

system takes

inputs and

converts them

into outputs.

The conversion

process is the

File Type PDF

Operations

Management

Gaither Solution

predominant activity of a production system. The primary concern of an operations manager is the activities of the conversion process.
