1.1.2 Web Browser setting Web browsers may store (cache) a copy of the iPECS Offline Web pages into a cache memory. The Web browser may use these copies to provide a “ quick view ” . If the Web page has been altered by data entered in Station Admin or a file upgrade, the copy will be out-of-date and could cause unexpected system operation.

50a Web Browser User Operation Manual Mylinkdrive

The user side of Web OS software, whether it's a Web browser or a system-specific client, runs on top of your computer's OS. But programmers design Web operating systems to look and act like a desktop OS. A Web OS might look a lot like a traditional OS, but it doesn't manage your computer's hardware or software.
