Philosophy for Architects - Mitrovi, Branko ...

But of course, no philosophy, discipline, or attitude, dictates what's the preferable application to create an exemplary piece of architecture. We see this as a challenge by presenting this structural system, that when taken into a local context is more economical and effective than the current building trends.

What is the relation between philosophy and architecture ...

Architects have often looked to thinkers in philosophy and theory to find design ideas or in search of a critical framework for practice. Yet architects, and students of architecture, can struggle to navigate thinkers' writings. It can be daunting to approach original texts with little appreciation of their contexts.

Meliss, Everything that anyone perceives is viewed through a filter of their world view, another term for that person's philosophy of life. This is influenced by many things; who they are as a person, what cultural and intellectual influences the...

Philosophy for Architects by Mitrovic Branko

One reason that architectural ethics is central to philosophy of architecture is that architects' actions bear great influence over other people's moral lives. Architects design structures and environments for people, with concomitant effects on personal behavior, capacity to choose courses of action, and ability to satisfy preferences, visit harm, generate benefit, or exercise rights.

Philosophy for Architects: Branko, Mitrovic: 9781568989945 ...

The relation between philosophy and architecture is interrogative and propositional. It is about asking questions concerning the meaning of human habitation—what it means to live in built environs—and about evaluating plans and design projects where human flourishing and social progress can best occur—in what kinds of buildings, interior spaces and urban precincts.
