Review: UniFi from Ubiquiti Networking is the ultimate prosumer home ... - Scott Hanselman
And the simple answer is: The UniFi Dream Machine is not very cheap wireless router from a very popular brand named Ubiquiti. But if we go a little bit deeper we will see that UniFi Dream Machine can replace four Ubiquiti products namely: UniFi Security Gateway which is a wired router and FireWall, and it is older and slower than UDM, UniFi Cloud Key - this is a controller allows you to manage all of your network equipment, Also a 4-ports switch - The closest one is the 5 port switch or ...

GRE Practice General Test #1 Answer Key - ETS Home
The Turing test, originally called the imitation game by Alan Turing in 1950, is a test of a machine's ability to exhibit intelligent behaviour equivalent to, or indistinguishable from, that of a human. Turing proposed that a human evaluator would judge natural language conversations between a human and a machine designed to generate human-like responses.

Turing test - Wikipedia
The primary difference is that the 8601w can test 8 cables at a time and the 8601s can only test one. You cannot buy more sensors to use with the 8601s and the sensors for the 8601w won't work with the 8601s. That is a BIG difference so to me so you are not comparing oranges to oranges but rather oranges to maybe - tangerines. In my opinion you can't really say that one model is better than the other because it implies that both devices do the same thing with only difference being that one ...
