Nursing: Concepts ...

Psychiatric nurses must be able to help patients with medical and mental health problems, reflecting the holistic perspective these nurses must have. Nurse-patient ratios and workloads in psychiatric settings have increased, similar to other specialties. Psychiatric nursing involves clinical practice, not simply documentation.

Psychiatric Mental Health Nursing: Concepts of Care in ...

Despite existing evidence and agreement on some of the effective treatments for persons with mental illness, research shows that few patients with psychiatric disorders receive evidence-based care (Horvitz-Lennon et al, 2009; Resnick and Rosenheck, 2009). In addition, research is limited on the evidence base of the policies and politics of the mental health delivery system, including agencies, programs, and service effectiveness.
