I think this book is really showing it's age. McConnell's advice feels genuine, but the data is based on experiences from the early 90s. A lot has happened in the software world between then and now so there are many things that don't fit with some of the best practices that modern development embraces.

Developer Professional Development Plan | Construx

Rapid-application development (RAD), also called rapid-application building (RAB), is both a general term, used to refer to adaptive software development approaches, as well as the name for Terry Barraclough's approach to rapid development. In general, RAD approaches to software development put less emphasis on planning and more emphasis on an adaptive process.
