Saab 900 Transmission Exploded View

Saab's tradition of excellence is built into every vehicle that wears the Saab badge. That's why OEM Saab parts should be your only choice for repair or maintenance. They're the only parts built to the same exacting standards of quality as your vehicle and the only parts officially backed by the Saab name.

fairly simple. On 2.0 liter engines the belts are tensioned by the tech tightening the tensioner screws on both the engine belt and the AC belt. On the 1990 and on 2.3 liter engines there is only one tensioner and the tensioning is done automatically due to a spring that is located on the tensioner.

Saab 9000 Wiring Diagrams - z90.pl
The Saab 9000 is an automobile produced by the Swedish company Saab from 1984 to 1998. Representing the company's foray into the executive car scene, it was developed as a result of the successes of the turbocharged 99 and 900 models. The 9000 remained in production until it was replaced by the Saab 9-5 in late 1997, although some final cars were produced into 1998.

the Saab B engine, which in turn was based on the Triumph Slant-4 engine.. Despite the name it is not an H engine or horizontally opposed engine, but a slanted inline-4. The H engine was introduced in 1981 in the Saab 900 and was also used in the Saab 99 from 1982 onwards. H stood for high compression, higher compression was part of the update from B to H engine.
