Teaching Math to Students with Autism | Time4Learning

When teaching math, you will be teaching one new concept at a time. For example, you might be teaching students how to do multiplication. Therefore, begin by introducing the topic of multiplication. Give them examples of how they will use multiplication in their daily lives, even when they are out of school.

11 Strategies in Teaching Mathematics - WeAreTeachers

Principle 4: Living and Loving Math. Both of these tend to show up in how you teach, but especially so in a homeschooling enviroment, because at home you're teaching your children a way of life and whether math is a natural part of it or not. Math is not a drudgery, nor something just confined to math lessons.
