The Andromeda Strain is a 2008 science fiction miniseries, based on the 1969 novel of the same name written by Michael Crichton about a team of scientists who investigate a deadly disease of extraterrestrial origin. The miniseries is a "reimagining" of the original novel rather than an adaptation. In addition to updating the setting to the early 21st century, the miniseries makes a great many plot and character changes from its source. The mini-series has two episodes for a total of 169 minutes.
