Survival Tips: Mini Encyclopedia - Amber Books

Survival. The continued possession of personality after the change called death. It is a fundamental doctrine of Spiritualism that Spiritualist phenomena demonstrate survival, and the investigation of that phenomena has been a major aspect of psychical research. The emergence of parapsychology represented, in part, a distinct reorientation of priorities away from survival research.

The Encyclopedia of Survival Techniques | Russell's For Men

Survival skills are techniques that a person may use in order to sustain life in any type of natural environment or built environment. These techniques are meant to provide basic necessities for human life which include water, food, and shelter. The skills also support proper knowledge and interactions with animals and plants to promote the sustaining of life over a period of time.
