The Organized Mind Quotes. "The most fundamental principle of the organized mind, the one most critical to keeping us from forgetting or losing things, is to shift the burden of organizing from our brains to the external world." ? Daniel J. Levitin , The Organized Mind: Thinking Straight in the Age of Information Overload.

The Organized Mind - Wikipedia

In the best-selling The Organized Mind: Thinking Straight in the Age of Information Overload, neuroscientist Daniel Levitin argues that the problem with the proliferation of information isn't as much about the storage of the information as it is about organizing and retrieving that information. The human brain is incredible at storing data; the challenge is summoning up the right stuff at the right time, while not being distracted by the rest.
