The Red and the Green by Iris Murdoch - Goodreads

The Red is a force which connects and pervades all animal life and micro-organisms in the universe. It is intended to be the force from which all of animal-powered heroes get their abilities, experienced by members with a connection to the heart of the Red, the Parliament of Limbo.

Amazon.com: Customer reviews: The red and green life ...

But believe it or not, there was once a time when holiday cards would feature the colors blue and white just as often as they would red. All changed in 1931 when Coca-Cola, the world's most popular soda maker, hired a new artist to illustrate Santa Claus named Haddon Sundblom.

RedGreenTV - YouTube

The book took its title and cover image from the General Service Medal (1962) issued to UK military. He also wrote the book The Red and the Green Machine, about his experiences in the Falklands War, and Jackspeak: A Guide to British Naval Slang and Usage. References [edit]

The Red Green Show - Wikiquote

Green is close to the center of the visible light spectrum at about 532 Nanometers. Red is higher on the spectrum at 635 Nanometers. Red light will be obscured by other light, whereas a green will not. While a red laser may only be visible up to 25 or 30 yards during the day, a green laser can be visible at 100 yards or more.
